

CONSULTING CORPORATION

CORPORATE FACT SHEET

Our Goal

To be the industry's leading travel agency point of sale tool by providing individually branded and customized workflow products. Our key advantages include the flexibility to gather sophisticated content from any source and the ability to book complicated multi-leg, multi-fare, multi-destination, multi-airline, and multi-content trips while also providing value-added information management tools.

Products

Our products improve productivity, minimize the necessity for extensive training and offer real time availability.

PASS XX/1 Transaction Server

- The XX/1 is a high performance transaction server that can be used for data distribution, document exchange and business procedure processing.

PASS VTO Professional (Virtual Travel Organizer)

- The PASS VTO is used by travel agents, travel brokers and travel departments within companies. Via a web front-end, they gather information from providers and pass it on to the traveler.

PASS VTO Consumer (Internet Booking Engine)

- The PASS VTO/IBE offers agencies the flexibility to allow their customers to book online. In combination with VTO, the agent can monitor real-time inquiries & promotions that have not yet been booked by potential clients. Thus, agents can follow up with shoppers and finalize a sale over the phone.

WE OFFER ACCESS TO TRAVEL CONTENT & INVENTORY FROM
VARIOUS SOURCES THROUGH A SINGLE POINT-OF-SALE

Services

Consulting

PASS is a team of developers, system analysts and business analysts that specialize in serving the travel industry with integrated consulting services in the areas of finance, transport & logistics, as well as the TIME industries. We provide software and professional services using emerging, yet proven technologies such as XML, XSL and Web Services.

Hosting

PASS provides application and interface hosting for any server software that we have developed or that we support on Windows, Linux and Sun Solaris operating platforms. We provide 24/7 coverage and guarantee 99.9% uptime for software modules developed by us.

Client Base

Our clients include travel agents, suppliers, and travelers. A few examples are:

Amadeus, Brendan Worldwide Tours, Thomas Cook, MSC Cruises, Unique Vacations (the worldwide representatives for Sandals and Beaches Resorts), Worldspan, Omega World Travel, MTS Travel.

Background

PASS IT Consulting was founded in Germany in 1981 and the US Launch took place in 1996. PASS now has more than 600 employees worldwide.

Usage

300 million travelers use the PASS VTO system annually.
